

DOMINO WHISKER REMEMBER ME BY

9.18 - 10.31.2025

Dan Yoshii is pleased to present *Remember Me By*, an exhibition by Irish artist Domino Whisker. Known for her intricately hand-embroidered textile works, Whisker combines text and figuration to create deeply personal, narrative-rich compositions. Using both found and new cloth, her practice is defined by originality, emotional resonance, and meticulous craftsmanship. Her work has garnered international attention and is highly sought after by collectors worldwide.

Whisker's new body of work explores themes of immigration, homesickness, and the enduring cultural thread between Ireland and New York City, beginning with the massive wave of emigration during the Irish Famine of 1845. The works also reflect her own story: emigrating to Los Angeles as a young girl in the 1990s and later returning to Ireland, embracing a restored sense of home. Her journey offers a poignant lens through which to consider broader questions of identity, displacement, and belonging - histories that continue to echo across both Irish and American experience.

"I wanted the work itself to be simple, highlighting the emotions that came across so many of these emigrant letters, happiness, hope, longing, heart ache and naivety"
- Domino Whisker
